-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Claims 17-28, 30, 31, and 33-40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 17-28, 30, 31, and 33-40 variously depend from a canceled claim. Therefore, it fails to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 16, 29, and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by Ng (US Patent No. 5,731,832).

As per claim 16, Ng teaches a method for detecting an object in an area, comprising: capturing a reference image of the area without the object present, wherein the area includes a patterned background with both light areas and dark areas (figure 6a and column 9, lines 27-28 and 37-39); capturing a live image (figure 6b and column 9, line 28); and determining if the object is present by comparing the reference image and the live image (figure 6c and column 9, lines 42-48).

As per claim 29, Ng teaches a method for detecting an object in an area, comprising: providing a patterned background in the area, wherein the patterned background includes both light areas and dark areas (figure 6a and column 9, lines 27-28 and 37-39); capturing a reference image of the area without the object present

(figure 6b and column 9, line 28); capturing a live image of the area; and determining if the object is present in the area by comparing the reference image and the live image (figure 6c and column 9, lines 42-48).

As per claim 32, Ng teaches an object detection system, comprising: a patterned background fixed to an area, wherein the patterned background includes both light areas and dark areas (figure 6a and column 9, lines 27-28 and 37-39); an image capture device for capturing a reference image of the area without the object present (figure 6a and column 9, lines 27-28 and 37-39), and a live image of the area (figure 6b and column 9, line 28); and a processing element for determining if the object is present in the area by comparing the reference image and the live image (figure 6c and column 9, lines 42-48).

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Astle et al is also cited.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yon Couso whose telephone number is (571) 272-7448. The examiner can normally be reached on Monday through Friday from 8:30 to 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jingge Wu, can be reached on (571) 272-7429. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
